Agenda

- What is QuixPay
- ACH Overview
- Business Benefits
- Demo
- Questions/Next Steps

What is QuixPay

Collecting (or disbursing) customer payments may be the most important part of your business.

If you are looking for an efficient, economical, safe and reliable method to do that then **QUIXPAY** is your solution.

QuixPay:

- Powerful
- Web-Based
- Easy to Understand and Use
- Secure

QuixPay harnesses the power of ACH/EFT transactions to improve your cash flow and profitability

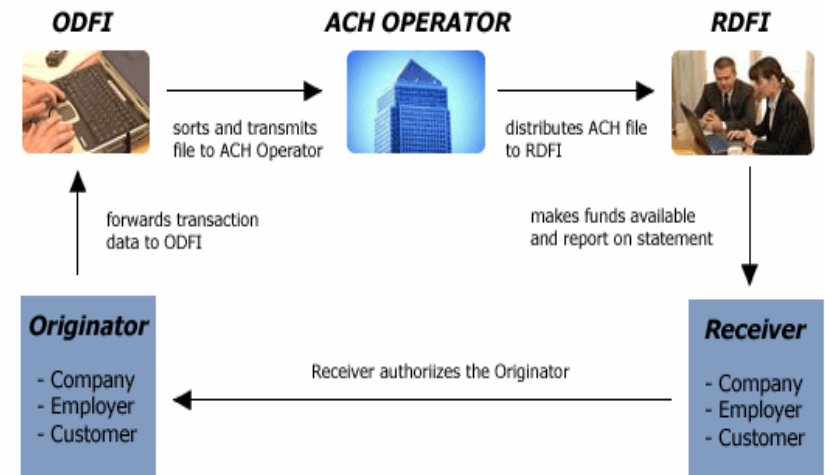

Automated Clearing House(ACH) Network

An ACH/EFT transaction is like a check, only there is no paper involved. It flows simply from one bank account to another and gives both the payer and payee tremendous ease of use.

The ACH Network is a highly reliable and efficient nationwide batch-oriented electronic funds Transfer system governed by the National Automated Clearing House Association(NACHA) Operating Rules.

These rules provide for the interbank clearing of electronic payments for participating depository financial institutions.

The Federal Reserve and Electronic Payments Network act as ACH Operators - central clearing facilities through which financial institutions transmit or receive ACH entries.

ODFI=Originating Depository Financial Institution
RDFI=Receiving Depository Financial Institution

QuixPay harnesses the power of the ACH network for your business with a powerful and easy to use web application

Would your business run more smoothly if you:

- Were paid more quickly and reliably using secure ACH electronic payments?
- Could easily place customers on an ACH based automated payment plan?
- Could **easily charge interest** on the money that your client owes you?
- Were able to process ACH check from one platform?
- Could accept an ACH e-check or check by phone or fax?
- Were able to automatically update your accounting package?
- Were able to collect NSF checks in an automated fashion?
- Received training and customer support from a toll free number?
- Could reduce payment processing costs by 80% or more?

Demo Tasks

- Adding a Customer
- Single Entry Transactions
- Recurring Transactions
- Credit Transactions
- Batch Transactions
- Copy from Clipboard
- Payment Calculator
- Blank Authorization Form
- Editing
- Editing a Scheduled Transaction
- Adding/Editing a User
- Logout User
